

The Autism Association provides a range of workshops or seminars for a variety of audiences including: Teachers and other professionals working in the field; Parents and their families, employers; and Students and for those interested in Autism Spectrum Disorder (ASD).

All of our training seminars are developed with access to current peer-reviewed research in the field of Autism and are designed with the learning needs of our audience in mind.

Keep reading to see our training calendar for the first half of 2017!
